

The background of the image is a close-up, slightly blurred view of a metallic surface. It features a complex, repeating geometric pattern of interlocking shapes, possibly a honeycomb or a similar tessellation. Within these shapes, there are stylized, dark, cross-like or star-like symbols. The lighting creates highlights and shadows, giving the surface a three-dimensional appearance.

OUR MISSION

"Timeless design starts with imagination."

- S.A. Baxter

INTRODUCTION

The SA Baxter Design Studio crafts some of the industry's most forward-thinking designs while bringing your creative vision to life. If you don't see the perfect fit in this document, want to tweak existing pieces, or have bold ideas, contact us.

My goal has always been to build a Design Studio and Foundry that blend cutting-edge innovation with classic detail. "It starts with imagination," I tell my team daily, where concepts are always in progress.

As a bronze sculpture collector, I've been passionate about the ancient lost-wax casting technique. After years of study, my team and I perfected our process. I'm deeply involved in every step and proud to lead one of the few facilities like this in the world.

— S.A. Baxter

DESIGN STUDIO

Imagination Starts Here.

The Design Studio supports both our in-house team and clients looking for bespoke creations. We blend innovation with craftsmanship, using cutting-edge tech alongside traditional tools.

Our design and engineering teams are constantly developing new concepts but remain fully accessible for consultation—from initial ideas through design for manufacturing. The Studio acts as the front line to our Foundry and atelier, offering designers direct access to our experts and unmatched lead times for prototypes and experimentation.

"Our goal is to enable design." — S.A. Baxter
