## THE START OF SOMETHING SPECIAL

A decade ago, we turned our attention from crafting custom motorcycles in an East London garage to using our skills and passion to design solid metal architectural details.

For us, details are everything. They're the foundation for compelling, tactile interiors. Our hardware, switches and lighting collections are designed for you to seamlessly combine elements and create a refined aesthetic. Adding Buster + Punch elevates everything; from the overall look and attitude to function and feel, nothing comes close.

Buster + Punch's pieces are crafted with care to make a positive impression on your world and have minimal impact on the one we share. We create future heirlooms made to perform and be loved for generations.

**BUSTERANDPUNCH.COM**

# BEHIND THE LOOKS

Buster + Punch has three looks: CROSS, LINEAR and CAST. Each look has its own set of influences and aesthetic attributes to help you create the perfect interior styling.

## CROSS

Cross is industrial, made from solid metal bar with a cross knurling created using a diamond-tip CNC lathe, it features a solid metal coin screw detail.

Linear has an elegant, long knurl that runs along its slimmed-down solid metal bar and has a tapered torx screw detail.

## CAST

Cast is an architectural design where rough-cast elements meet a smooth, hand-polished solid metal bar. Cast pieces are finished with our solid metal spun screws. The nature of the casting process means each piece is totally unique.

DIRECTORY **FINISHES**

Check availability for limited inventory or discontinued products.

 **BURNT STEEL**

Solid stainless steel exposed to excessive heat and finished with a protective PVD coating to create our unique, durable, burnt steel finish. Check availability for limited inventory or discontinued products.

 **BLOND BRASS**

Solid brass, finished with a nickel plated PVD. This finish has a soft, light gold patina with undertones of bronze.

 **BRASS**

A versatile natural solid brass with a warm lustre and crisp hue, finished with a layer of durable EPL coating. For the Cast range, a stainless steel base is used, finished with a durable brass PVD coating, making it waterproof.

 **WARM SUNSET**

A tastefully extravagant and charismatic finish with a warm, aesthetic. Warm sunset is a stainless steel base with PVD coating. Suitable for bathrooms, spas and wet rooms. Part of our collaboration with GROHE SPA.

 **SMOKED BRONZE**

Solid brass, hand finished with a special oxidising formula, and finally heated to give a beautiful dark bronze appearance. Finished with a durable, EPL coating.

 **GUN METAL**

Gun Metal is made from solid stainless steel which is then finished in gun metal PVD coating. This is an exceptionally durable process, and it will retain its elegance and soft lustre for many years.

 **BLACK**

Machined from aluminium and then anodised for a very consistent, hard wearing, deep black finish with a satin sheen. Electricity plates are solid metal and finished in a durable matte black EPL coating.

 **WELDERS BLACK**

Solid stainless steel with a durable PVD coating technique, to create a soft and subtle, charcoal-black finish. For the Cast range, a stainless steel base is used, finished in a durable Welders Black EPL coating making it waterproof.

## CABINET HARDWARE

Precision-engineered solid metal cabinet hardware for kitchens, bathrooms and furniture. Create a seamless foundation of detailing with signature B+P looks and finishes.

**CABINET HARDWARE**  
**CROSS**

The original solid metal hardware collection, our iconic Cross look lays the foundation for styling with details at the core of a space. With a refined industrial aesthetic that feels as good as it looks, the diamond-cut cross knurling pattern adds presence and drama in versatile finishes that transform your interiors. Cross hardware includes furniture knobs, pull bars, closet bars, hooks and T-bars.

**CABINET HARDWARE**  
**LINEAR**

Linear cabinet hardware adds a real sense of elegance and refinement to everything it touches. The collection is made from solid metal bar, with torx screw detailing, and a crisp, diamond-cut linear knurling pattern that catches the light. All refined by hand and packaged for a great unboxing experience. The range includes cabinet knobs, L-bars and pull bars.

## DOOR HARDWARE

Crafted from solid metal and refined by hand, our door hardware is your interior's tactile handshake. Complete your B+P door styling with matching hinges, escutcheon plates and thumbturn locks.

**DOOR HARDWARE**  
**CROSS**

Cross door hardware has industrial cues, with sharpness and precision in its solid metal construction. The look is resolved with our coin screws, brushed elements, and refined by hand. Use it to create a seamless interior, with details and hardware that flow through your spaces. The range includes door handles, door knobs, door stops, locks, hinges and strike plates, plus escutcheon plates, to ensure no detail is overlooked.

**DOOR HARDWARE**  
**LINEAR**

Linear door hardware is elegant and refined. With a linear knurling pattern and slimmed proportions, it has a stylish and confident hand feel. Door handles have a unique oval stem, and its torx screw adds a gentle taper to the design. The range includes door handles and door knobs, which can be combined with our hinges, strike plates and escutcheon plates for a harmonious B+P door look.

**DOOR HARDWARE**  
CAST

Cast door hardware strikes the perfect balance of rough meets smooth. Crafted from hand-refined smooth solid metal bar and tactile cast elements, each piece is inherently one-of-a-kind. The collection is the result of intensive R&D, combining two opposing production techniques into our most dynamic solid metal aesthetic to date.

## SWITCHES + SOCKETS

The customisable Buster + Punch switches, sockets and outlets collection is the pinnacle of interior detailing. Sleek and tactile, endlessly versatile, with an analogue action that connects you to your surroundings, they speak to the soul.

SWITCHES + SOCKETS  
**CROSS**

Level up your details with the Buster + Punch collection of switches and sockets. A one-stop solution that effortlessly ties together entire spaces, homes and contract interiors. The units feature a flat plate and are crowned with our trademark coin screws and diamond-cut knurled knobs and toggles – for unrivalled tactility. The collection includes light switches and dimmers, outlets, sockets, modules, back boxes, electricity plates, plus detail kits.

SWITCHES + SOCKETS  
**LINEAR**

Linear switches, dimmers and sockets all feature a solid metal back plate, modular construction and are crowned with our signature Torx screws. The collection has been designed to complete our Linear range of interior details, hardware, lighting and accessories, bringing seamless elegance to any space.

The collection is available in our solid metal finishes as complete units or can be purchased as Linear Detail Kits to customise or change the look of existing Buster + Punch dimmers, switches, and sockets.

## CREATE YOUR OWN CUSTOM SWITCHES & SOCKETS

Let your creativity run free with Buster + Punch's modular switches, dimmers and sockets. The iconic solid metal B+P aesthetic breaks new ground with a customisable, future-proof format that lets you combine function, form and finish, to create pieces that speak to who you are and how you live.

Build your own switches & outlet with EU configurator online.

CUSTOM ELECTRICITY

Use our online configurator to create your own custom switches and sockets, combining different modules, inserts and detail kits. All set against our solid metal backplates and signature coin screws.

## LIGHTING

Buster + Punch lighting anchors an interior with elegance and finesse. Sculpted from solid, cast and spun solid metals, the range is designed to be combined throughout spaces and interiors to bring versatility and aesthetic power in equal measure.

LIGHTING  
**TAKEOUT**

Takeout is a portable table light made from solid metal and featuring our signature cross-knurl. The light features a unique B+P light pipe, housed in a toughened glass shade, and is 'step dimmable' at a touch. Available in our brass or steel finishes, Takeout is rechargeable, IP65 wet rated and suitable for use outdoors.

LIGHTING  
EXHAUST

Exhaust is a flexible range of spotlights and pendants that bring versatile task lighting to any space, with styling to match. Its solid metal powder coated body is brought to life with functional detailing. The light features a knurled solid metal baffle to direct light, housing a honeycomb structure to reduce glare, and comes in a pendant, surface, spotlight or track light variation.

LIGHTING  
**FORKED**

A tribute to solid metal and the techniques used to bring it to life, the modular Forked collection enthalls the eye, with a form that's one of our largest in terms of physical scale and presence. Choose from a ceiling or pendant light, add a shade, globe or both, in the finish of your choice. Machined and handmade elements are fused into one design, finished with our one-of-a-kind rough cast fork detail. Each light comes with its own specially-designed B+P LED light bulb. For situations where you want a soft decorative light, the smoked globe variants are a good direction to explore. For a more functional ambient light choose a Forked with an opal globe. Adding a shade can also help to shape Forked's light qualities, making it more directional.

LIGHTING  
**HOOKE**

A lighting range that opens a sense of dynamic playfulness into an interior, Hooked's precisely machined hook is as functional as it is decorative. Select from wall or pendant options and add shades as you explore different vertical drop heights. Hooked's light fitting is made from solid metal, with diamond-cut cross knurling and a grooved section to allow easy fitting of its shade. In spaces with higher ceilings, explore Hooked's eye-catching chandeliers with bare pendants or pendants with shade combinations.

LIGHTING  
**CAGED WET**

Our first wet-rated lighting series. Caged Wet’s structural aesthetic is the perfect enhancement for outdoor environments, bathrooms and spa spaces. Its unique cast backplate creates a dynamic look, while glazing protects its signature B+P lamp holder from the elements. Wall and ceiling versions bring versatility to your styling.

LIGHTING  
**HERO LIGHT**

Sometimes a space needs a Hero. Hero's solid metal, powder coated ring has subtle references to the traditions of blacksmithing and forging. Choose whether you want to hang its six solid metal cross-knurled pendants centrally or run them around the light's circumference. With matching solid metal cord weights and coin screw detailing. Hero is a perfect complement to our Hooked range, which shares similar details.

CAGED WALL / LARGE**

LIGHTING  
**HEAVY METAL**

Heavy Metal is more than a pendant. It's a statement. The light's solid metal construction, diamond-cut cross-knurled body and range of finishes have made it a permanent Buster + Punch favourite across the world. A simple but provocative design that works effortlessly in all spaces and settings. Select from linear or cross-knurled in multiple finishes.

## MAKE A STATEMENT

Buster + Punch's Bespoke Chandeliers are irresistible statement pieces that command the attention. Create your own bespoke design by completing our bespoke order form, where you can choose from multiple formats, finishes, knurls and more.

LIGHTING  
CHANDELIERS

Buster + Punch Chandeliers are powerful pieces; decadent and impactful. Designed around 10, 19 or 31 of our Heavy Metal or Exhaust pendants, with bespoke drop heights and two formations, cascade and classic. The Exhaust Chandeliers are perfect for scenarios that need more of an intimate light, like above dining tables, or social zones. In contrast, Heavy Metal Chandeliers add an ambient glow that's well-suited for interiors that need a real statement piece.

LIGHTING

BULBS

Our patented designer LED light bulbs were the world’s first, and are the perfect complement to our lighting collections. They’re designed to be as good looking as they are energy efficient, with a range of shells in glass or polycarbonate to help you create the perfect lighting ambience. From the ground-breaking Buster Bulb to the compact Puck and our elegant Tube, there’s nothing quite like them. Let there be light.

## KITCHEN

The Buster + Punch kitchen collection transforms the heart of a home. Elevate your space's style with accessories, shelving and our striking mixer faucets. Complete with B+P lighting plus switches and outlets in a matching finish – details are everything in this space.

KITCHEN  
CUSTOM KITCHEN

The Buster+Punch kitchen is the ultimate expression of our material mastery, engineering precision and rebellious spirit. Inspired by the freestanding professional kitchen, our modular system becomes the bold centrepiece of the home.

Each kitchen is created in collaboration with our preferred kitchen professional partners who work closely with you to design a scheme that reflects your lifestyle, your space and your personal aesthetic. From bold compositions to refined minimalism, every detail is considered, balancing solid metal detail with high-performance construction to deliver uncompromising functionality, durability and unmistakeable style.

Complete the look with our signature mixer taps and solid metal shelving, refined by hand and built to endure.

Manufactured in the UK and Europe, discover more at [www.kitchensbybusterandpunch.com](http://www.kitchensbybusterandpunch.com)

KITCHEN  
TAPS

The Buster + Punch mixer tap has a striking visual edge and is designed to complement our kitchen hardware and lift it to a new level of refinement. A rough cast base, hand polished neck, diamond-cut knurling on the aerator cap and either a cross or linear-knurled lever combine in this striking kitchen talking point.

KITCHEN  
**SHELVES**

Strength and couture details combine in our collection of statement shelves. Girder + Hanger shelves are crafted from solid, powder coated metal with signature Buster + Punch detailing. Each shelf has its own set of functions to suit your needs, including solid metal guard rails or pan rails to hang utensils. Refined by hand, they are designed to complement our accessories, lighting, and furniture ranges.

## COLLABORATIONS

Unique collaborations with brands and individuals who share our passion for shattering boundaries and exploring subcultures. Conceptual, subversive journeys, with compelling results that inspire conversations.

## COLLABORATION GROHE

Born from a shared vision to make it effortless for designers and architects to create beautiful, cohesive bathrooms, Buster + Punch x GROHE SPA introduces a comprehensive collection that delivers unmatched quality and effortless style. The union of two iconic global brands brings premium solid metal hardware and lighting to the world of water in this exclusive capsule collection.

Introducing Warm Sunset — a tastefully extravagant finish born from GROHE SPA and Buster + Punch's pursuit of design harmony, blending precision craftsmanship with rich, contrasting materials for interiors of confident, radiant character.

As well as Warm Sunset, the GROHE SPA x Buster + Punch collaboration also means you combine elements from our standard finishes featured in our As well as Warm Sunset, the GROHE SPA x Buster + Punch collaboration also means you combine elements from our standard finishes featured in our Cross collection.

**"To elevate your look in spas, wet rooms, and bathrooms, it's essential to combine detailing, brassware and lighting in one seamless finish. This is one of the key reasons why this collaboration came about and is so powerful – it's everything you need to create seamless aesthetic statements."**

## DETAILS FOR LIFE

**FOR OVER A DECADE, OUR PASSION FOR METALS, ORIGINALITY, AND UNIQUE PERSPECTIVE HAVE CARVED OUT NEW PATHS IN INTERIOR DESIGN.**

I searched endlessly for a collection of details like this that would integrate seamlessly when I was an architect. Now, everyone can use Buster + Punch's details to lay the groundwork for creating elevated, refined spaces.

When I enter an interior, my focus always falls on the things we touch – those details reveal the true quality of a space. This is why we work with solid metal; its distinctive temperature and weight resonate when you interact with it.

Details like light switches and door handles used to be an afterthought, bought by builders in soulless DIY stores. My mission at Buster + Punch is to change how these forgotten details look and how you feel about them. Good detailing brings you closer to the built environment around you.

We are metal makers first and foremost. We urge you to pick up our products and experience them in the metal because you'll connect with them multiple times daily. Think of Buster + Punch as the part of your home that shakes hands with your friends when they walk in.

Bringing Buster + Punch into your home will change how you experience your surroundings. These are functional details with an aesthetic edge, allowing you to express your identity and originality. We hope you'll feel our passion for quality and refined attention to detail when interacting with them.
